

- Key
- Proposed turbine locations
  - Landscape and Visual Study Area
  - Local authority boundaries
  - Lines indicating the distance from the proposed turbines
  - Enoch Hill 2 wind farm may be theoretically visible
  - Windy Standard Repower / Sanquhar II / Lorg Variation / Eucharhead wind farms may be theoretically visible
  - Greenburn / Over Hill Variation wind farms may be theoretically visible
  - Enoch Hill 2 and Windy Standard Repower / Sanquhar II / Lorg Variation / Eucharhead wind farms may be theoretically visible
  - Enoch Hill 2 and Greenburn / Over Hill Variation wind farms may be theoretically visible
  - Windy Standard Repower / Sanquhar II / Lorg Variation / Eucharhead and Greenburn / Over Hill Variation wind farms within 10km may be theoretically visible
  - Enoch Hill 2, Windy Standard Repower / Sanquhar II / Lorg Variation / Eucharhead and Greenburn / Over Hill Variation wind farms within 10km may be theoretically visible
  - Application Wind Farms

Enoch Hill 2 Wind Farm  
EIA Report

**Figure 9.11**  
**Cumulative ZTV: Enoch Hill 2 with**  
**Application wind farms within 10km**

March 2023

Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

This figure has been based on the following parameters:  
Turbine layout file: LMONQUHILL007.WFL  
Hub height: 81.9m  
Rotor diameter: 136m  
Height to blade tip: 149.9m
