

Scotland

RWE is one of the world's leading renewable energy players

Involvement in over

480 MW¹

of renewable generation including Scotland's first commercial-scale offshore wind farm Robin Rigg

RWE's 55 MW

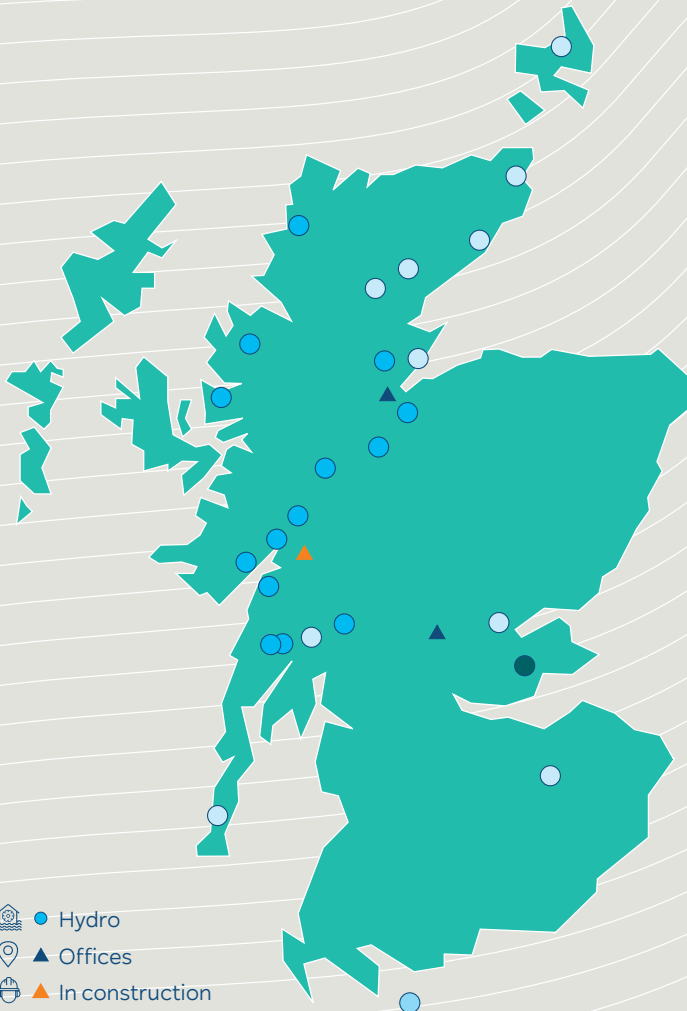

renewable biomass

plant at Markinch provides heat for the Glenrothes Energy Network

Over their lifetime, the renewables projects that we currently operate will contribute

£15.2 million

into Scottish community benefit funds.

- Offshore wind
- Onshore wind
- Biomass
- Hydro
- Offices
- In construction

In operation

10 Onshore wind farms

14 Hydro power stations

1 Offshore wind farm

1 Biomass Combined Heat & Power station

2 Offices Perth & Inverness

¹ Including An Suidhe (19.3 MW), 51% owned by RWE

RWE Investment in Scotland

Scotland is a key market for RWE. With our strong pipeline of development projects, we are fully committed to helping Scotland achieve its ambitious climate change targets. As well as developing a number of onshore wind projects, we have been a leading player from the start of the offshore

wind industry. We are identifying opportunities that will capitalise on our vast experience in fixed offshore wind and involvement in a number of floating wind demonstration projects around the world, with a view to being a long-term partner for Scotland.
